Reelmaster 5410/5510/5610

Fairway mowers

LEADING BY REPUTATION.

Performance, productivity and quality are just words if a piece of equipment has not earned them through actual customer usage. After more than 10 years of satisfying customers, the Reelmaster 5410, 5510 and 5610 have earned a reputation for delivering exceptional performance, maximum productivity and high quality. And we haven't stood still over the years. Toro® continues to spend time listening closely to our customers to better understand their evolving requirements. Based on customer input, Toro engineers continually work to refine and improve each fairway mower to meet those needs. Everything from operator comfort and efficiency to tractor performance, cutting unit after-cut-appearance improvements and even ease of maintenance is reviewed in our relentless effort to maximise productivity and efficiency.

SMART POWER

EdgeSeries Reels

F E A T U R E S

Powerful Tier 4 compliant engines

- Featuring Yanmar 3-cylinder, liquid-cooled, diesel engines.

Smart Power®

- Automatically adjusts the mower's ground speed for the terrain and cutting conditions to maintain the desired reel speed, taking the guesswork out of a consistent cut.

Proven reliability and performance

- The time-tested platform delivers exceptional durability, high performance and versatility.

Electronic cruise control

- Easily keep a consistent speed and reduce fatigue while mowing large areas.

Enhanced climbing and hillside stability

- CrossTrax all-wheel drive system is based on the Toro patented Series/Parallel design. If one of the front tyres begins to slip, power is transferred to the opposite rear tyre for optimum traction.

Precise monitoring and control

- An onboard InfoCenter allows viewing and changing of settings. It also provides essential information about service intervals, diagnostics and faults.

Unparalleled operator comfort

- With a tilt steering wheel, easy-access steps, a deluxe suspension seat and a well thought-out design that moved the radiator to the rear of the engine compartment to move heat rejection and noise away from operator, these fairway mowers are designed for comfortable, all-day operation.

Outstanding quality of cut

- Dual Precision Adjustment (DPA) cutting units, featuring Toro's EdgeSeries reels, combine to deliver a consistent, high-quality cut and superior after-cut appearance, while reducing maintenance with improved reel edge retention.
