

QUICKLY MIX YOUR OWN FEED AND SAVE THOUSANDS

With the rising cost of liquid concentrates, mixing your own feed from soluble straights can be as much as 90% cheaper. Mix your own without the time and mess of pre-mixing and avoid the risk of blocked

sprayer jets with the brand new Mega-Mix fertiliser and chemical mixing station. Soluble straights can be thoroughly mixed with just cold water and filtered into your sprayer in minutes.

GreenTek®

Trusted by the best in the game

- Save time by spraying whilst the next load mixes
- Inline filter unit prevents nozzle blockages
- 5hp Honda engine with high-capacity pump to fill your sprayer in minutes
- Fills and mixes unattended with auto shut-off filler hose

Save hours of time, thousands of pounds and buy more sustainably

MEGA-MIX

The brand new Mega-Mix fertiliser and chemical mixing station provides a fast, economical way for you to mix your own feed.

Thoroughly mix up to 1,200 litres in the tank, using only cold water. Then, thanks to the high capacity pump and 5hp engine, transfer the solution through the filter unit and into your sprayer in just minutes.

Fills and mixes unattended with auto shut-off filler hose

5hp Honda engine with high capacity pump

High volume hose with integral filter unit to prevent blocked nozzles

- Save up to 90% compared with using liquid concentrate
- Safely add chemicals with integral fold-out step
- Minimise sprayer blockages and pump wear with fully dissolved granules
- Be more sustainable with reduced transport emissions and the recycling of plastic drums

Mega-Mix fills and mixes unattended with an auto shut-off filler hose enabling you to be out spraying one load whilst the next one mixes. Save hours of messy work and thousands of pounds per year by mixing your own solutions with Mega-Mix.
